

18001 OHSAS Auditor/Lead Auditor

From IQMS UK (IRCA UK Regd.)

Five Days International Certification Program

Introduction

Occupational Health and Safety Assessment Series (OHSAS) 18001:2007 is one of the three basic components of Integrated Management System (IMS). This course will enable the participants to undertake effective auditing of Occupational Health & Safety Management System in all types of industrial activities by clearly understanding the requirements of OHSAS 18001. This is a valuable course for the organizations interested in implementing either OHSAS or Integrated Management System (IMS) in their activities. It will enlighten the OH&S auditors for conformance with the national and international accepted norms and regulation related to OHSAS 18001 requirements and specifications.

Learning Outcome

- To understand the rationale supporting OHSAS implementation
- To interpret the requirements of the OHSAS 18001 specification and their scope and field of application

Course Contents

- Background and fundamental concepts
- Legal and Regulatory Aspects
- International Protocols

- Clause by clause interpretation
