Certificate in Quality Assurance & Management Level - II

Introduction

Quality Assurance & Management is one of the core elements of any business organization in manufacturing, service and government sectors. It has attained a high level of maturity in the developed countries but still at low maturity level in under-developed and developing countries, including Pakistan. Quality Assurance is a broad based subject which deals with how to measure, control, standardize and continually improve the products and services of organizations through effective standardization, improvement and enforcement of policies, strategies and processes. This course provides the foundation in understanding of core elements of the Quality Assurance for multi-discipline professionals.

Learning Outcomes

After doing this certificate, participants will be able to:

- Gain basic knowledge, understanding and application of developing Quality vision, strategies and KPIs for organizations
- Understand how to build and improve Quality Assurance and TQM programs in their organizations
- Understand and apply Statistical Process Control, Root Cause Analysis for problem solving and process improvement.

Course Contents

1. Six Sigma
2. Quality Circle, Kaizen & 5S
3. Balanced Scorecard & KPI Development

Valuable For

Quality Managers, Engineers and Professionals serving in industrial and services sectors.

Duration

3 Days
