Quality Movement in Pakistan

Certified Supply Chain Professional

Introduction

Over the past few years there has been growing realization to integrate the key business processes starting from suppliers to the end users of the product. Supply chain activities have an important role in transformation of natural resources, raw materials & components into a finished product and its delivery to the end customer or user. This has brought strong focus on Supply Chain Management which leads to better planned production and cost effective distribution of products. Certified Supply Chain Professional (CSCP) is designed to meet the rapidly changing needs of logistics, vendor/inventory/warehouse management of the organizations and to provide them a process to get competitive edge in the market.
