Professional Diploma in Project Management

Introduction

Project Management Professional credentials are recognized as the universal standard of Project Management Institute. In this course, the participants acquire knowledge and skills which will help them in preparing for the PMP exam. Through practical exercises participants learn essential PMBOK Guide terminology, tools and techniques. This course is also beneficial for the participants to gain knowledge of ISO 10006 standard and learn practical merge of positive aspect of both the guidelines to have edge over others (the competitors).

Learning Outcome

- Prepare to pass the PMP exam
- Navigate the process groups and knowledge areas of the PMBOK Guide
- Identify and map the inputs and outputs of the PMBOK Guide processes
- Align your project management knowledge with PMBOK 5th Edition Guide terminology and definitions
- Map the process groups of PMBOK and ISO 10006
- Blend the two international guidelines (PMBOK and ISO 10006) to create value for your organization.
