Certified Project Management Professional

4 Months Weekend Based
Professional Diploma in Project Management Professional

Managers and Engineers, Doctors and Defense Officers
Certified
Project Management Professional

Introduction
The credentials of Project Management Professional diploma / Certified Project Management Professional certification are based on Project Management Institute’s (PMI) body of knowledge recognized world wide. This course focuses on providing the participants with requisite knowledge besides building their competence & skills for managing the practical projects and also helping them to prepare for the PMI certification (PMP) exam. The participants also learn ISO 10006 and essential PMBOK Guide terminology, tools and techniques through exercises conducted during the course, which may facilitate their work while executing practical projects in their organizations. This course is helpful for the professionals in their career growth and for the beginners to adopt it as career.

Intended Learning Outcomes
1. Credentials being based on PMI BOK, preparing the participants to qualify the PMP exam
2. Navigate the process groups and knowledge areas of the PMBOK Guide
3. Identify and map the inputs and outputs of the PMBOK Guide processes
4. Align your project management knowledge with PMBOK 5th Edition Guide terminology and definitions
5. Map the process groups of PMBOK and ISO 10006
6. Blend the two international guidelines (PMBOK and ISO 10006) to create value for your organization.
